

# EIGHT ASH GREEN NEIGHBOURHOOD PLAN

## EVIDENCE BASE (as at 12<sup>th</sup> February 2018)

### INTRODUCTION

1. In developing the Neighbourhood Plan (NP) for Eight Ash Green (EAG), we have consulted –looked at – researched a wide variety of papers, publications and reports.
2. In addition, we have consulted/met with a considerable number of stakeholders so as to collate information and data, relevant to or specific to EAG as well as background/data information that will help set our work in context of both Colchester Borough and where appropriate, the County of Essex. Details of all our meetings and consultations are included in our Consultation Statement – they are not included here although they do form part of our overall Evidence Base.
3. It is important therefore to read this document in conjunction with our Consultation Statement as well as our latest Project Plan as this will help provide an all-inclusive picture of our work.
4. The self explanatory table below sets out the various documents – reports – surveys we have consulted/undertaken, in date order.
